BACKGROUND

Driver Solutions Pty Ltd attained initial registration as a registered training organisation in April 2012 and currently delivers three vehicle licence units of competency from the TLI10 Transport and Logistics Training Package. Training and assessment for all three units is highly structured and addresses the criteria established by New South Wales Roads and Maritime Services (RMS) as the licencing authority. Prior to becoming a registered training organisation, the family-owned company operated a driver training school specialising in heavy vehicle driver training for a number of years. Family members continue to be involved in the management and operation of the registered training organisation, with the company's Chief Executive Officer, Michael Sciberras, also being an approved RMS trainer/assessor and member of

the Board of Directors at the Australian Driver Trainers Association (NSW) Ltd.

Training and assessment is offered by Driver Solutions Pty Ltd on a fee for service basis, in New South Wales only. Training is delivered face to face, using vehicles provided by the RTO, with a trainer to student ratio of 1:1. Assessment is conducted using the assessment tools prescribed by RMS, with supplementary assessment having been developed by the RTO to address gaps that it has identified between the mandatory assessment tools and the TLI10 Training Package requirements for the units of competency.

The majority of the company's marketing of its accredited training occurs via the internet - pay per click marketing via Google, and via the company website.

The company does not currently have any partnerships or auspice arrangements with other organisations for the delivery of training and assessment.

Total number of current enrolments in RTO as at audit date: 13
